4.05 REGULATION OF ALARM DEVICES. (1) **PURPOSE.** The purpose of this section is to establish regulations, standards and controls relating to the type, use and installation of alarm devices.

(2) **DEFINITIONS.** The terms used herein shall be defined as follows:

(a) *Alarm System.* An assembly of equipment installed for the purpose of notifying the Police Department by the Polk County Sheriff's Department Dispatch Center of urgent intention to either an intrusion and/or a robbery to said location.

(b) *Alarm User.* Any business or any citizen in the Village that installs or maintains an alarm system. A person is considered an alarm user when the Police Department receives notifications by the Sheriff's Department Dispatch Center of the alarm signal. How the signal is reported to the Police Department does not determine whether or not the person is an alarm user.

(c) *Automatic Dialing Service.* Automatic dialing service is an alarm system which creates and sends a prerecorded message that is transmitted directly over telephone lines to the Sheriff's Department indicating the existence of an emergency situation.

(d) *On-Premises Alarm.* An on-premise alarm generates a signal on or about the premises to notify that an intrusion is occurring. This is a visual or audible alarm signal that does not connect directly to any answering panel or service.

(3) **ALARM PERMITS.** Any person intending to install or maintain an alarm system shall first obtain a permit from the Police Department. An alarm permit shall be granted only after satisfactory completion of an application submitted to the Police Department for approval. The application shall explain what type of alarm will be utilized along with a description of how the alarm works. If an alarm user fails to obtain a permit, he shall be held in violation of this section. If at any time the alarm user does not comply with the regulations set forth in this section, the alarm permit may be revoked by the Police Chief or his designee. There shall be no charge for the permit for a signal alarm received.

(4) **CENTRAL ANSWERING STATION ALARM.** The central answering station alarm is programmed directly to a private central answering station. This station is responsible for the monitoring of the alarm and notifying the Police Department by the Sheriff's Department when an alarm is transmitted from the user to the service. The central answering station will advise the Police Department by the Sheriff's Department of which alarm user had transmitted the signal. The Sheriff's Department shall, to the best of its ability and equipment potential, advise the Police Department of which area on the premises is experiencing the intrusion. If it is a robbery in progress alarm, the Sheriff's Department shall give whatever information is available to it at the time. The central answering station shall be responsible for maintaining a current contact notification list for each user. The station shall contact a key holder or other representative to meet the Police Department responding officers to determine the cause of the alarm. Representatives shall be advised to respond to every alarm location in a timely fashion. Anyone utilizing a private alarm company is subject to all other guidelines of this section that apply.

(5) **AUTOMATIC DIALING SERVICE PROHIBITION.** The Sheriff's Department does not permit automatic dialing services with a prerecorded message to terminate on any of the telephone lines into their dispatch center. No person shall be granted a permit with this type of system.

(6) **ON-PREMISES ALARMS.** Visual or audible alarms that do not connect to an answering panel or service shall be referred to herein as "on-premises alarms." This type of alarm generates a signal on or about the premises to notify that an intrusion is occurring. On-premises alarms are subject to other alarm permit requirements found under sub. (3) above and sub. (10) below.

(7) FALSE ALARMS. A false alarm means a signal from an alarm system caused by intentional means, employee error in regulation of the alarm or equipment malfunction resulting in a response by the Police Department or the Sheriff's Department when an emergency situation does not exist. An alarm shall not be counted as a false alarm if it is due to a power outage or power interruption.

(8) OFFICER RESPONSE TO ALARMS. The officer responding to an alarm call shall determine whether or not the transmission will be recorded as a false alarm. All incidents involving an alarm shall necessitate a final determination or disposition to be recorded on the Polk County computer used by the Police Department. Officers shall rely on this computer information to determine whether or not a user shall be assessed a forfeiture for the false alarm.

(9) ALARM TESTING. It is the responsibility of the alarm user and/or service company to notify the Sheriff's Department of intentions to test the alarm. In the event of an alarm test and no prior notification of testing exists, the alarm test shall be considered a false alarm.

(10) PENALTY. (a) *Violation of sub. (3) above utilizing an alarm without a permit.*

1. The first violation shall be subject to a verbal warning.
2. The second violation shall be subject to a written warning.
3. All subsequent violations shall be subject to a forfeiture of \$100 plus costs.

2. The second violation shall be subject to a written warning.
3. All subsequent violations shall be subject to a forfeiture of \$100 plus costs.
